CAPT. CRUTCHER CALLED.

His Familiar Figure Will Be Seen on Las Vegas Streets No More

"The old major's gone," were the words that passed from lip to lip among those who knew that Capt. George L. Crutcher, the old printer, for whom they had been caring, had been taken to seriously sick. Early Friday morning he managed to hobble into the Optic office, where he was provided with a cot on which he tay all day writhing in pain and with death staring him in the face. Arrangements were made for his trans portation to the Home, where he sank away to his eternal rest at noon on Sunday. The funeral took place at 4 o'clock this afternoon from Dearth's undertaking rooms, attended by some

by some nephews and nieces residing in parts of Kentucky. Capt. Crutcher was an officer in the rebel army. Those who knew him as he was, and not as he sometimes seemed to be, particularly when brought in contact with strang ers, know that his faults were as but trifles of the air compared to his virtues. In the death of Major George L. Crutcher it is not saying too much to say that a noble, unselfish and generous

spirit has passed over the range into the Great Byond. May it be well with him. Paul Stephens, a printer well known throughout the territory, is dead in Santa Fe at the age of fifty years. Like

Carbuncles, which are more painful and dangerous, come most frequently on the back of the neck, eating great holes in the flesh, exhaust the strength and often prove fatal. Boils are regarded by some people as blessings, and they patiently and uncomplainingly endure the pain and inconvenience under the mistaken idea that their health is being benefitted, that their blood is too thick anyway, and this is Nature's plan of thinning it. The blood is not too rich or too thick, but is diseased—is full of poison—and unless relieved the entire system will suffer. The boil or carbuncle gives warning of serious internal troubles, which are only waiting for a favorable opportunity to develop. Many an old sore, running ulcer, even cancer, is the result of a neglected boil.
